-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 18 November 2004.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Art Unit: 2833

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

2. Claims 1, 2, 4-7, 9, 10 and 16 are rejected under 35 U.S.C. 102(b) as being anticipated by Faller. This plug comprises a body with a first end 10 adapted to be inserted into a mobile power port, a locking device 7,10, 12, and a control device 9.

In response to applicant's argument that Faller is silent on any potential use of the device for power outlets such as those found in automobiles, it is noted that a recitation of the intended use of the claimed invention must result in a structural difference between the claimed invention and the prior art in order to patentably distinguish the claimed invention from the prior art. If the prior art structure is capable of performing the intended use, then it meets the claim. See *In re Casey*, 152 USPQ 235 (CCPA 1967) and *In re Otto*, 136 USPQ 458, 459 (CCPA 1963). Applicant has failed to indicate any claimed structure that is not shown by Faller.

In regard to applicant's concern mobile power ports have substantially smooth bores with dead ends that prevent the use of devices such as that of Faller, it is noted that not all power ports have smooth bores (see previously cited patent of Erez, et al.). In addition, it is again noted that applicant has not positively claimed the power port as a part of the present invention.

3. Claims 1, 2, 4-7, 9, 10-12, 14 and 16 are rejected under 35 U.S.C. 102(b) as being anticipated by Garrison. This plug comprises a body with a first end 18 inserted into a power port, a locking device 22, and a control device 38. A second end of the body includes an attachment 12. Applicant discusses two alleged differences between the present device and Garrison. However, these differences are not supported by the claimed limitations.

Art Unit: 2833

4. Claims 3, 8 and 13 remain rejected under 35 U.S.C. 103(a) as being unpatentable over Garrison as previously discussed and not separately argued by applicant.

5. Claim 15 is allowed.

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

7. It is suggested that responses to this final action be faxed to:  
(703) 872-9306

Please refrain from sending a confirmation copy, as noted in 37 CFR 1.6(d) and 1.8(b).

Alternatively, responses may be mailed to:
